

Vancouver Range

The latest technical advancement in European tile manufacturing allows this new range - using digital ink jet printing which ensures each tile has its own character.

Manufactured in Europe to premium standard, this look is the best of natural wood look and style giving variation and texture in a plank linear format.

Made of quality porcelain and finished to require no surface sealing - this is as good as it gets.

No marks or dents that would normally affect natural wood, great for wet areas and suitable for high UV light, it won't fade or shrink.

Can be used on walls and floors and with under floor heating.
