

# Palazzo Range

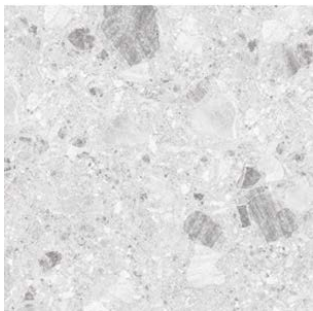

The Palazzo range has unique features that have been designed to replicate natural pebbles and stones. If you want a stone look without the uneven surface, then this is the tile for you.

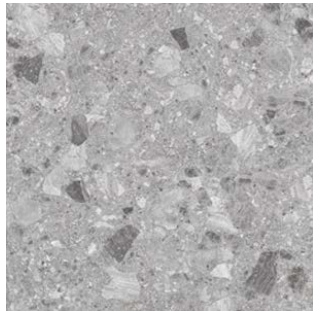

This range has three different surface options for use in all interior and exterior applications. Palazzo Endura for exterior paving/decks, Natural and Lappato finish for interior walls and floors.

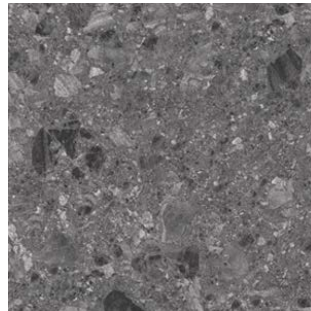

**Palazzo Bianco**  
Lapatto 600x600mm
