

The Wall Urbano Range

Suitable as a floor and wall tile, The Wall Urbano reinterprets the charm of brick, its tactile rendering and urban spirit, but in a 6mm thick porcelain body.

The surface is bumpy and natural just like a hand formed brick and the edges feature a

slightly feathered and natural look. Designed and quantified to be laid with a 10mm grout line.

This product is made in a premium Italian factory.

The Wall White Urbano Brick
