

Timeless Range

Available in 4 warm timber-ones, The Timeless range offers a cozy and welcoming atmosphere in any room.

The look is further enhanced with rectified edges for super fine grout joints as well as natural pattern variation to replicate natural wooden planks.

Made of quality porcelain and finished to require no surface sealing - this is as good as it gets. No marks or dents that would normally affect natural wood, great for wet areas and suitable for high UV light, it won't fade or shrink.

Can be used on walls and floors and with under floor heating.

This product is made in a premium Italian factory.
