

Italia Calacatta Monet is a marble-style porcelain tile inspired by the famous Calacatta Monet marble, originally from the Apuan Alps in Italy.

It is characterized by a light background, slightly warm and almost creamy in some areas, with a rich level of detail in its crystallizations and subtle natural watercolor effects. This contrasts with the dark veins, featuring subtle shades of purples and ochres,

running across the surface, creating a unique and sophisticated look.

This high-end Spanish design has a subtle surface texture and variation from piece to piece giving you a stunning unique final interior floor or wall surface.

Manufactured in Europe to premium standard.

Italia Calacatta Monet
Matt 600x600mm

Italia Montblack is a marble-style porcelain tile inspired by Negresco, a very special surface granite.

Its charcoal black background is enriched with smoky undulations crossed by bold veins, like white quartz lightning bolts, creating truly textured natural slabs.

This high-end Spanish design has a subtle surface texture and variation from piece to piece giving you a stunning unique final interior floor or wall surface.

Manufactured in Europe to premium standard.
