TILE INSERT CHANNEL DRAINS

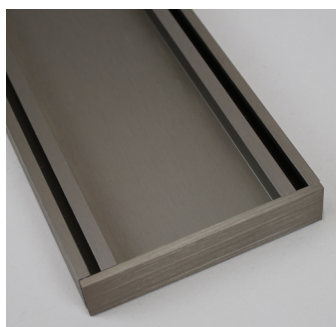

Tile Insert Channel Drains are designed to allow for a hidden look installation where a tile is cut and placed inside the bracket.

This is a beautifully crafted designer shower drain which has been designed to fit most tray systems in the NZ market. Available in a 3000mm length (but can be cut to size in 100mm increments), and two size options - 100mm x 21mm and 80mm x 23mm.

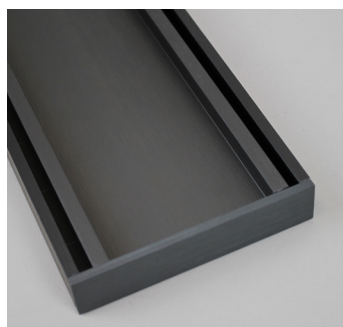

The waste hole can also be customised to fit individual shower/plumbing needs.

END CAPS AND WASTE OUTLETS

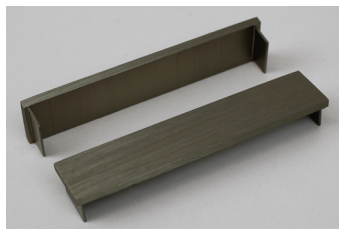

A range of end caps and waste outlets to perfectly compliment your drain colour and size choice.

Our end caps match the thickness of the drain sides to seamlessly finish off each end of your drain. They are designed to be universal with both the tile insert and grate designs.

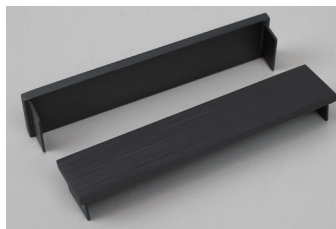

Our waste outlets can be installed at any part of the drain length allowing for a customised plumbing solution.
