Lucca

FLOOR & WALL TILES

Lucca Stone brings the elegance of natural marble with soft, cloud-like textures and delicate beige-gold veining. This tile adds warmth and depth in a neutral palette which complements a wide range of styles.

The matt finish delivers a smooth, low-reflective surface, perfect for bathrooms, kitchens, and open-plan living spaces. Its large 450x900mm format minimises grout lines, creating a clean, spacious appearance that visually expands any room.

Crafted from porcelain, Lucca Stone is both durable and low-maintenance, resisting moisture, stains, and wear. Whether used on floors or walls, this tile delivers the timeless appeal of natural stone with all the benefits of modern design.
