FLOOR & WALL TILES

Discover the Terrain range, a 450x900mm porcelain tile collection inspired by terrazzo.

Available in three contemporary colourways which offer bold character from the layered stone-like fragments and natural variation. The large-format design minimises grout lines, creating a seamless, modern look ideal for both walls and floors.

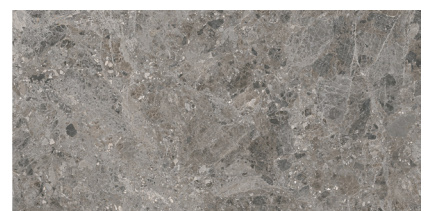

Durable and low-maintenance, Terrain is suited to a wide range of residential and commercial spaces, offering practical performance without compromising on style.
