

Palazzo Tile Range

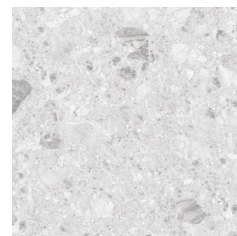

Palazzo

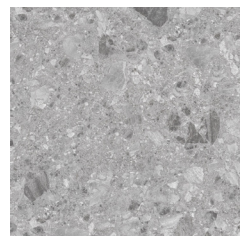

FLOOR & WALL TILES

The Palazzo range has unique features that have been designed to replicate natural pebbles and stones. If you want a stone look without the uneven surface, then this is the tile for you.

Designed for continuity, Palazzo In Out allows you to flow from bathroom to outdoor areas with ease, maintaining a cohesive aesthetic throughout. Durable and versatile, it's equally at home in wet areas, living spaces, and alfresco zones-perfect for projects seeking both style and practicality.

Palazzo Bianco
